

PRESENTING AWARDS FOR:

EXCELLENCE IN CONSTRUCTION

CHAPTER SAFETY AWARD OF
EXCELLENCE

NATIONAL STEP

2022 ABC CENTRAL TEXAS CHAPTER

**EXCELLENCE IN
CONSTRUCTION**
AWARDS

22 SEPTEMBER 2022 | BULLOCK TEXAS STATE HISTORY MUSEUM | AUSTIN, TX

WELCOME FROM THE PRESIDENT

Welcome to the 2022 ABC Excellence in Construction and Safety Awards Banquet! We love celebrating our members and tonight is no exception! This evening, ABC is honoring the Central Texas Excellence in Construction winners, Chapter Safety Awards of Excellence, Safety Training and Evaluation Process (STEP) recipients, Bob and Peggy Duda Chairperson Award, and recognizing those that made significant contributions to our chapter.

The Excellence in Construction Awards has two levels, top honor being the EIC Award of Excellence, and the next level being the EIC Award of Merit. The coveted trophy is an impressive statue of an American eagle. The EIC strives to honor those who uphold a dedication to building projects safely and for the betterment of Central Texas. I want to make it a point to say that, while there are two levels for EIC, every project has met a minimum judging threshold, and all are examples of excellence in our industry.

As the President of ABC Central Texas, on behalf of our Board of Directors and our staff, thank you for your ongoing and continuous support of ABC. Without the support of its members, no association can survive, let alone strive to provide the resources, representation, education and information that its members expect. My door is always open at ABC and I welcome your input and suggestions as we move into the coming year.

Please enjoy tonight's celebration, drink responsibly and drive home safely!

SPECIAL GUEST

GREG SIZEMORE

Greg Sizemore is the Vice President of Health, Safety, Environment and Workforce Development at Associated Builders and Contractors. In this role, he oversees a network of 800 education programs and leads ABC's health, safety, environment and workforce development initiatives.

Sizemore is also responsible for ABC's Safety Training and Evaluation Process, a benchmarking improvement tool that dramatically increases safety performance among participants by reducing recordable incidents by up to 85 percent, making the best-performing companies' 680 percent safer than the industry average.

Additionally, Sizemore is a key liaison between the construction industry and the public sector on safety and workforce development. He has participated in several national priorities led by the Trump Administration, including a prison re-entry summit hosted by the White House's Office of American Innovation, as ABC President and Chief Executive Officer Michael Bellaman's official designee to the Task Force on Apprenticeship Expansion and the ABC representative for President Trump's "Pledge to America's Workers," where the association committed to educating and developing at least 500,000 Americans over the next five years.

For decades, Sizemore has been active as a volunteer leader in the safety and workforce development space. He is a past chair of the ABC National Craft Champions Committee and NCCER Workforce Development Committee. He currently serves on the board of directors of NCCER and is a trustee of the Construction Industry Alliance for Suicide Prevention.

PROJECT NAME
TxDot Campus Consolidation

LOCATION
Austin, TX

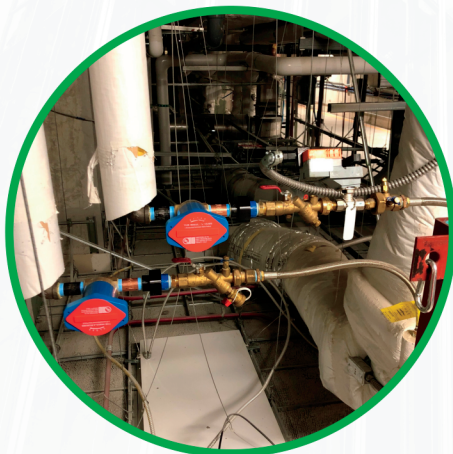

OWNER
Texas Department of Transportation

ARCHITECT
Marmon Mok

ABC MEMBERS
4

The new Stassney Campus consolidates 36 divisions of the Texas Department of Transportation into five buildings in Austin. The new campus includes a five-story, 425,000 SF administration building; a six-level, 548,000 SF cast-in-place parking garage for 1,586 vehicles; and a two-story, 13,000 SF central utility plant.

The original scope was replacement of heating water system pipe unions that were corroding and leaking over critical research lab experiment areas in every floor level of a 7-story building and increased when more unions than anticipated were discovered above the ceilings.
